Dear ATGENDER members,

Settling in as the new ATGENDER board, we are getting accustomed to our regular common work and to the challenges of establishing an independent and lively European feminist network. The last months we spent with business as usual and in future-oriented spirit. This brief newsletter just informs you about our very successful Skype board meeting on 20 June and about our participation at two conferences: a Brussels conference on the setting up of a Gender Studies MA in Belgium on May 19, 2011 and a conference organized by the newly established *Fondation des Femmes pour la Méditerranée* on June 14, 2011 in Paris. While you are reading this newsletter our ATGENDER delegation is in Ottawa organizing workshops on teaching gender studies and presenting our Teaching series to the participants of the Women's Worlds Congress. You will hear more of their report in our first newsletter after the break. So nothing remains for now but to wish you a very productive and relaxing summer break!

On behalf of the ATGENDER board and office,

Iris van der Tuin and Andrea Peto

3. **ATGENDER** at the official launching of the Women's Foundation for the Mediterranean

On June 14th, 2011 Nadine Plateau represented **ATGENDER** at the official launching of the Women's Foundation for the Mediterranean. Below you can read a letter in which she reports on the most important aspects of the event.

Dear all,

*As you know I represented **ATGENDER** (and Sophia) at the official launching of the Women's Foundation for the Mediterranean in Paris on 14 June. The next two days I participated in the first meeting of GO (Groupe organisateur : see the names of the members in attached document) of The Euro-Mediterranean Academic and Scientific Network on women and gender (in French RUS, réseau universitaire et scientifique). We discussed several points among which the most important and urgent was the preparation and organisation of the colloquium, which will take place in Paris on 28 & 29 November 2011. This colloquium will officially launch the Euro-Mediterranean Academic and Scientific Network on women and gender.*

So far the GO has taken the following decisions concerning the colloquium.

*1. The theme: «**Women, Networks and 'Revolution' in the Maghreb and the Arab and Euro-Mediterranean world: what about democracy in the light of gender?** ». This topic has been chosen because of its relevancy in the current context but this focus on Mediterranean events does not exclude, on the contrary, a broader reflexion on past and present democratic processes in countries of Western, Eastern and Northern Europe.*

2. The targeted public: scientific networks, researchers in gender studies (associations are also welcome).

3. The speakers: researchers, actors with a reflection on the recent events, journalists, bloggers. There should be majority of persons from the South.

4. Programme:

AM:

- Presentation of RUS and platform

- Introduction on the issue of the Euro-Mediterranean academic network (what's at stake? What prospects? Impact of recent events on research? How do we «think» the current situation? Which new questions are brought by the revolutions? Etc.) This will be done by The French organiser Sylvie Cromer.

*- First round table on the topic of «**Media & Social Networks**»*

PM:

*- Second round table: «**Formalizing the rights of women**» (an analysis of the discourses and processes in Marocco, Tunisia, other countries...); gap between formal and real equality.*

*- Third round table: «**What democratic ideal is needed to achieve gender equality?**». Interaction between research networks; what can be transferred from civil society to research. Here examples could be proposed of themes for the future like gender and migration, of prospective methodologies, of the reception of the Arab revolution by gender studies in North and West Europe.*

NB: There would also be images (films, photos, videos, posters etc.) on women in revolutions

This gives you an insight into what the colloquium will be like. There will be soon a draft text for each round table but we are already looking for speakers who could participate in one of the three round tables (each speaker will have 20 minutes).

*I think it would be important to have a member of **ATGENDER** in at least one of the three tables. The contribution should be related to the proposed themes but references to and a critical view on some past experiences within North/West/East Europe would be welcome.*

Best wishes,

Nadine

4. Tuning Belgium (Report from a conference in Brussels)

The Tuning brochure, which was initiated during ATHENA3 and will be taken further care of by **ATGENDER**, is proving to be an immensely productive tool for discussing the status of Gender Studies in individual European countries. Iris van der Tuin represented **ATGENDER** at the presentation of the feasibility study on the establishment of an inter-university Master's programme in Gender Studies in Brussels on Thursday May 19, 2011. Sophia has conducted this study with the support of the Institute for Equality between Women and Men in 2009-2010. The Tuning Gender Studies brochure proved to be a helpful instrument for the feasibility study as such, because the brochure provides the details on the disjunction between European and Belgian Gender Studies. To be brief: while feminist activism and independent Gender Studies scholarship are thriving in Belgium, there is, contrary to the other European countries, no MA in Gender Studies to be followed in the country. During the study day in Brussels, these facts were presented to the Ministry of Education and to other important figures in the Belgian educational management and policy landscape. Attended by a great many Gender Studies scholars, Iris van der Tuin presented the Tuning brochure as such, and the role of Belgian Gender Studies scholars, Equal Opportunity specialists, Gender trainers, and feminist activists in the context of European Gender Studies in general and **ATGENDER** in particular. After the report was presented and discussed by Gender Studies scholars and educational managers and policy makers on governmental and (inter-)university levels, the lively discussion demonstrated the necessity of the MA in Gender Studies. **ATGENDER** will support our Belgian colleagues on their way to the Master, and congratulates Sophia and the Institute for Equality between Women and Men with this first, very important step towards its realization.

5. Green Paper Initiative Report

Resume Of the Outcomes of the Consultation Process on the Green Paper for a Common Strategic Framework for Future EU Research and Innovation Funding

22.06.2011

In May 2011 **ATGENDER** submitted a position paper to join the "Consultation on Green Paper on a Common Strategic Framework for future EU Research and Innovation Funding". Our paper emphasised the crucial importance of the Social Sciences and

Humanities as key drivers and commentators in this process of innovation required by the EU. It highlighted the need for the inclusion of the gendered aspects of the objectives of smart, sustainable and inclusive growth, social and economic prosperity, and of environmental sustainability success.

On the 10th June 2011 the summary of the analysis of the consultation process was announced on the consultation [website](#).

Our official response is one of 775 position papers and out of 2078 consultation documents in total. **ATGENDER** is happy to announce that its claims were considered by the authors of the idea of a Common Strategic Framework for EU Research and Innovation Funding. Their analysis now displays the determination that “gender balance (i.e. the equal participation of women and men in research activities at all levels) as well as gender dimension should be fully integrated in all aspects of the Common Strategic Framework, while underlining that this mainstreaming approach needs to be paralleled by specific actions and budget” (Green Paper on a Common Strategic Framework for EU Research and Innovation Funding. Analysis of public consultation, Luxembourg: Publications Office of the European Union, 2011, p. 19).

6. National Associations Campaign

During the Spring Conference which took place in Utrecht in early April of 2011 a meeting was organized where **ATGENDER** members discussed the issues connected with National Associations membership. It was decided that **ATGENDER** should concentrate on all associations that are committed to the aims of **ATGENDER** connected with:

- Gender & Women’s Studies, Feminist Research and the related fields (such as: postcolonial, migration, anti-racist, queer, sexualities, labour & care studies, masculinities);
- Documentation (librarians, documentation & information specialists, women’s centers)
- Gender Equality & Diversity (equal opportunity agents, women’s and feminist activists, HR, employers)

The group agreed that it is crucial to unite such associations and that a focused effort should be made to increase the number of National Associations’ membership. The group also decided to compose a list of names & email addresses of associations in different countries that could be targeted.

Board-members: Pat Treusch, Aino-Maija Hiltunen and Berteke Waaldijk promised to bring these suggestions to the **ATGENDER** Board.

As a result with the beginning of summer 2011 **ATGENDER** Board decided to launch a campaign which is aimed to introduce many of the National Associations connected with gender and feminist research to what **ATGENDER** as a growing European association has to offer. In short:

1. Project development, representation and networking:

- Your association will be part of the strong transnational network of women’s/feminist/gender experts & activists in Europe. We have excellent

working relations with EU (the European Institute for Gender Equality), with members in the European Parliament.

- **ATGENDER** may represent European associations in the field of feminist/women's/gender studies in the World Organizations of Women's Studies (WOWS).
- Your association will be eligible for co-organizing **ATGENDER** conferences. At this moment we organize two types of conferences: the 3-yearly European Feminist Research Conferences (2012 Budapest, CEU) and the yearly **ATGENDER** spring conference in different locations. The spring conference can be organized back-to-back with a conference that your association is organizing.
- When you apply for funding (e.g. with the EU, or with your national government) you may refer to **ATGENDER** as an instrument for dissemination of results.

2. Easier access to feminist press and publishing

- Your association may propose new volumes in our book series 'Teaching with Gender'
- Your association will be able to take advantage of reduced subscription for a number of international journals in the field of gender studies

3. International Influence and involvement in the decision making of **ATGENDER**

- Your members will have access to the information (website and newsletter) provided by **ATGENDER**.
- If you join **ATGENDER**, we will with your help provide some information about **ATGENDER** in the language of your choice on our website; this will invite your members to join transnational activities.
- You and your members will gain visibility through information about your organization on the **ATGENDER** website. You may advertise jobs, internships, meetings, conferences.
- Institutional **ATGENDER** members will have three votes in the elections of the **ATGENDER** board.
- When **ATGENDER** organizes a conference, each institutional **ATGENDER** member may propose three persons to benefit from reduced registration fees. This advantage may be up to €100
- Your association may set up a permanent working group within **ATGENDER**, for example to work with other associations in other countries on a specific theme or topic.

Crucially **ATGENDER** Board has designed new forms of Institutional membership effective July 2011:

1. An institutional membership for July – December 2011 for € 250 (when applying for a reduced fee € 125)
2. An institutional membership from July 2011 until December 2012 € 500 (when applying for a reduced fee € 250). **The first half -year membership for free!**
3. Special offer*: for 2,5 year membership: July 2011 until December 2013 for € 1000 (or reduced: € 500). When your association commits to a membership of 2,5 years, you

may propose a maximum of 10 members of your association who can become new individual members of **ATGENDER** for two years (2012 & 2013) for the price of one year. The price of individual membership is € 75 (full), € 45 (reduced) or € 25 (students). This also means that these proposed individual members will be entitled to the €100 fee reduction for the 8th European Feminist Research Conference in Budapest 2012 and to participation in the **ATGENDER** spring conference in 2013.

* This offer stands until 30th of September 2011 and will expire when the yearly institutional membership fee is not paid. The membership fee may be paid in two installments (before December 2011 and before March 2012).

How to become a member?

On our website you will find a **new digital form** to register for the institutional membership, on this form you can propose the (max.) 10 members of your association for the individual membership discount. We will contact them for more information. The members can also be proposed later when more convenient.

7. Call for Papers: 8th European Feminist Research Conference – Deadline Extended

DEPARTMENT OF
**GENDER

CEU 

CEU Celebrates its 20th Anniversary: 1991-2011

**THE POLITICS OF
LOCATION
REVISITED:
GENDER@2012**

8th European Feminist Research Conference

May 17 - 20, 2012 | Budapest, Hungary

CALL FOR PAPERS

Deadline for proposals: August 15, 2011

<http://www.8thfeministconference.org>

Women and men in Europe in the first decades of the 21st century are confronted with acute social, political, cultural, economic and environmental concerns, including increasingly racist politics and nationalist discourses across Europe, huge cutbacks in social services and education, strengthening conservative gender discourses, and an overall climate unfavorable if not hostile to feminist, queer, and other progressive movements. In striving to address these concerns on regional, national and

international levels, feminist scholars are re-assessing their theoretical and political toolbox. The 'politics of location', coined by Adrienne Rich in 1976, continues to play a crucial role in these debates. Women's and gender studies cannot do without reflecting on the politics of their locations, but how to use this tool now that locations are constantly shifting? When the locations we inhabit are perceived to be multiple, paradoxical and (in)comparable?

The **8th European Feminist Research Conference** invites scholars, students, activists and policy makers to re-visit their politics of location in the light of current crises in Europe and beyond, and to reflect upon the ways in which feminist scholarly tools can be used for understanding and for changing the world.

Reflecting the diversity of women's and gender studies European Feminist Research Conferences represent cutting-edge scholarship. The **8th European Feminist Research Conference** is organized by the **Central European University, Department of Gender Studies** and **ATGENDER, the European Association for Gender Research, Education and Documentation**. The European Feminist Research Conferences usually have more than 500 participants from both inside and outside Europe. The Conferences have a track record of presenting innovative feminist scholarly work with critical perspectives on contemporary Europe and its histories. The previous European Feminist Research Conferences were held at the universities of Ålborg (1991), Graz (1994), Coimbra (1997), Bologna (2000), Lund (2003), Łódź (2006) and Utrecht (2009).

This one will be held in **Budapest, Hungary, May 17 - 20, 2012**.

8. Names to Faces: ATGENDER New Intern: Rianne Ridder

Dear ATGENDER members: I would like to take this opportunity to introduce myself to everyone. My name is Rianne Ridder (22), living in Amsterdam, and this summer I will be doing my internship at **ATGENDER**. I hold a bachelors degree in Anthropology and during my studies I have become more and more interested in gender issues. After having co-organized the successful LOVA international conference on Ethnographies of Gender and Conflict, I hope my organizational skills and my affinity with the gender topic can become useful to the **ATGENDER** organization. For me, this is a great way to prepare myself for the coming year, in which I will participate in the MA program on Gender, Sexuality and Society at the University of Amsterdam.
